## SUPREME CLEAN MULTI-PURPOSE CLEANER & DEGREASER Part No. SC-2430

**NOTE OF INTEREST:** The original purpose for the SUPREME CLEAN formulation was for the car detailing industry at a suggested dilution of 1: 30 to 1: 50, depending upon the soil. Since that time, experience proved this cleaner to be more than a typical cleaning product. It was challenged by the toughest type of residue, carbon buildup, which is an on-going problem for the oven chains at bakeries. Simply soaking a link of chain in a tank at ambient temperature with **SUPREME CLEAN** concentrate, the carbon buildup will begin to loosen immediately. Soak time depends upon the degree of hardness.

**SUPREME CLEAN** is a concentrated multi-purpose liquid cleaner and degreaser blended with excellent wetting agents that rapidly remove various soils in both soft and hard water. It is rust inhibited and safe for cleaning all ferrous and non-ferrous metals. It contains no caustics, acids, chlorinated solvents, or petroleum distillates. It is environmentally safe.

**Directions:** Soak, spray or wipe it on and rinse off thoroughly. Chains that were heavily encrusted with carbon may need a thorough high pressure rinse.

**Examples of various applications and their dilutions (NOTE): You can always add more concentrate to the solution when necessary.**

Dilution (1) Institutional: For painted walls, glass fixtures, skylights, windows, ceramic and wood and carpet cleaning.

Dilution (2) Commercial: For floors of concrete, ceramic, tile, terrazzo, vinyl, rubber and plastic.

Dilution (3) General Surface Cleaning: For airplanes, buses, trucks, trailers, boats, canopies, plastic, air conditioning units, electric fans and motors, cooling coils and filters, and white sidewall tires.

Dilution (4) Industrial: For cleaning dirt and grease from equipment, lift trucks, engines, pipes, motor shells, electric motors, and machinery.

Dilution (5) Industrial Maintenance: For conveyors, engines exhaust stains, machines, metal stock, welding equipment and oil stained driveways.

Dilution (6) Industrial Maintenance: For cleaning oven chains best results is in soak tank followed by rinse and sprayed with PETRO-GARD® PURE LUBE aerosol spray can to eliminate rusting.

PAGE 2**

<u>Dilution No.</u>	<u>DILUTION TABLE</u> <u>Parts of Cleaner</u>	<u>Parts of Water</u>
(1)	1	50
(2)	1	30
(3)	1	20
(4)	1	10
(5)	1	3
(6)	1	0

**SPECIFICATIONS:**

Form	Pink liquid
Specific Gravity	1.072
Odor	Citrus
Foam	Stable
Flash Point (TCC)	116° to 125° F.
Rinsing	Complete
pH (Conc.)	Approx. 12
Wetting	Excellent

**SAFETY:** Safe on most painted surfaces and metals. Test on plastics or any surface when in doubt.

For safety wear rubber gloves.

**CAUTION: KEEP OUT OF REACH OF CHILDREN.** Not considered hazardous for skin contact. For eye contact, flood with water for 15 minutes and get medical attention.

**STORAGE & HANDLING PRACTICES:**

Warehouse in unopened containers at ambient conditions. Under these conditions, storage life is practically indefinite. For information on the safe handling and use of this product, refer to the Material Safety Data Sheet. For more information and availability, call (630) 513-6350.
