SHIPPING CLASS: 65 (NON HAZARDOUS - Not regulated by any means of transportation)		
<p>Signal Word: WARNING</p> <p>Hazard Statements: Causes mild skin irritation.</p> <p>Precautionary Statements: Avoid breathing dust / fume / gas / mist / vapors / spray; Contaminated work clothing should not be allowed out of the workplace; Wear protective gloves / eye protection / face protection; IF ON SKIN: Wash with plenty of soap and water; Get medical advice / attention; If skin irritation or a rash occurs: Get medical advice / attention; Wash contaminated clothing before reuse.</p>	<p>Fire Safety: Containers can build up pressure if exposed to heat (fire). Fire involving large amounts of material should not be approached because individual containers may rupture abruptly causing "fireball" effect. Fire-fighters should wear self contained breathing apparatus and full protective clothing when fighting chemical fires. Use water spray to cool nearby containers and structures exposed to fire.</p> <p>GHS: Globally Harmonized System Compliant Contact SDS for more information</p>	<p>Handling and Storage: Keep container closed when not in use. Good hygienic practices should be observed. Work clothes should be washed separately at the end of each work day. Disposable clothing should be discarded with material.</p> <p>Spill Procedure: Wipe, scrape or soak up in an inert material and put in a container for disposal. Wash walking surfaces with detergent and water to reduce slipping hazard. Wear proper protective equipment as specified in the protective equipment section. Large quantity spills should be contained and pumped into drums for recovery or disposal.</p>
